GitHub: https://github.com/marcusthorne

Profile Summary
Data Scientist and Machine Learning Researcher specializing in Deep Learning, PyTorch, and NLP systems.

Technical Skills
Python, Machine Learning, PyTorch, TensorFlow, SQL, Docker, GCP

Professional Experience
Lead Data Scientist - AI Innovations (2020 - Present)
- Trained transformer neural network models for document semantic understanding.
- Deployed inference pipelines on GCP using Docker.

Education
M.S. in Artificial Intelligence - Institute of Technology (2018 - 2020)
B.S. in Mathematics - Institute of Technology (2014 - 2018)

Key Projects
Neural Semantic Search: Transformer-based similarity search engine built in Python and PyTorch.

Achievements
- 1st Place Winner - National AI Hackathon (2022)
- Best Applied ML Paper Award - AI Research Symposium (2021)
